HOME SITE APPROVAL - continued

Complete Land Use Intent form.

Note: If you are planning a driveway, it is most efficient to submit request at the same time as the home site approval request.

In preparation for the Plan Commission site visit, stake the four corners of the building envelope.

Confirm that proposed home site meets Town of Vermont standards.

1. The minimum lot size for any home in Town of Vermont is two (2) acres.
2. All lots require either sixty-six (66) feet of road frontage or a sixty-six (66) foot legal easement.
3. The Town regulations also prohibit building in Resource Protection areas or floodplains and there is a twenty-eight (28) foot height restriction in the Town's designated Ridgetop Protection Area.

Submit site plan with Land Use Intent Form that shows the following:

- Boundaries of the parcel.
- Location of the property relative to adjacent and nearby roads.
- Location of the proposed home site, with dimensions to the boundaries of the parcel. The home site should be located within a maximum 100'x150' envelope.
- GPS coordinates of the four corners of the home site envelope.
- Location of any other proposed structures.
- Location of existing structures.
- Location of any existing or proposed private sewage system.
- Location of existing and proposed driveway(s), with dimensions to property boundaries and GPS coordinates on the centerline:
 1. Where it enters the public road.
 2. Every 50 feet.
 3. Where it enters the home site envelope.
- Percentage and direction of slopes at the home site and driveway locations.
- Tillable land and wooded areas.
- Location of ridgelines (Ridgetop Protection Area), if any.
- Location of any surface water within 1,000 feet of any land to be disturbed.

HOME SITE APPROVAL - continued

DRIVEWAY PERMIT APPLICATION

- | | | |
|--------------------------|---|---|
| <input type="checkbox"/> | Contact Plan Commission Secretary to schedule site visit and meeting date. | plancommission@townofvermont.com
608-767-3953 |
| <input type="checkbox"/> | Review the Town of Vermont Driveway Ordinance BEFORE you submit the Land Use Intent form. | |
| <input type="checkbox"/> | Are you planning minor maintenance? | Minor maintenance is defined as any work that does not require excavation and that disturbs less than 500 square feet of land area outside the existing roadway? If this is the case, no driveway permit is required. |

DRIVEWAY PERMIT APPLICATION - continued

- Are you planning work that exceeds minor maintenance but that changes the existing grade by less than three feet and disturbs less than 2,000 square feet of land?
-
- If this is the case, your work is considered "Driveway Improvement."
-
- Are you planning work that changes the existing grade by three (3) feet or more and disturbs 2,000 square feet or more of land? If this is the case, your work is considered driveway construction. Follow all steps listed to the right:
- Create site map with GPS coordinates every 50 feet on centerline starting at the road and ending at the building envelope
 - Place flags that correspond with all GPS coordinates in preparation for Driveway committee site visit
 - Submit Land Use Intent Form
 - Attend Plan Commission Meeting & obtain Plan Commission approval
 - Pay fee – Make check payable to Town of Vermont
- Upon completion of the driveway, it will be inspected by the driveway committee for conformance with the plan. Re-inspection will continue until conformance is achieved.
-
- Determine current zoning of property.
-
- Does proposed or current driveway enter a county highway? Review Dane County requirements and obtain access permit.
-
- Does proposed or current driveway enter a state road? Review Wisconsin Department of Transportation requirements and obtain permit.
-
- Will over 20,000 square feet of new impervious area be added? If this is the case, contact Dane County regarding storm water management/erosion control plan requirement.
- Stormwater management permit required. Contact Dane County Water Resource Engineering
-
- Will more than 4,000 square feet of land be disturbed, or will more than 125 lineal feet of new driveway be constructed?
- Erosion control permit required. Contact Dane County Water Resource Engineering

DRIVEWAY PERMIT APPLICATION - continued

- Submit Land Use Intent Form for Driveway Construction permit.
-
- Complete driveway construction plan which includes the items note to the right:
- Location of existing and proposed driveway(s), with dimensions to property boundaries
 - GPS coordinates on the centerline (1) where it enters the public road, (2) every 50 feet (3) where it terminates
 - Location of any stream, wetland or other surface water within 1,000 feet of land to be disturbed
-
- Place flags that correspond with all GPS coordinates in preparation for Plan Commission site visit.
-
- Submit Land Use Intent Form for Driveway Construction permit.
-
- Attend Plan Commission meeting.
-
- Obtain Plan Commission recommendation for approval.
-
- Attend Town Board meeting.
-
- Obtain Town Board approval.
-
- Pay fee. Make check payable to Town of Vermont.
-

Complete driveway construction within three (3) years of board approval date or a new permit will be required.

CONDITIONAL USE PERMIT

Determine current zoning of the property and whether or not it allows for your intended or conditional use.

- Complete Conditional Use Permit application.

CONDITIONAL USE PERMIT - continued

- Submit surveyor's map (preliminary map is acceptable) showing the items to the right:
- The property in which the CUP parcel is located
 - The CUP parcel, with dimensions and locations of corners
 - Acreages of the existing property and the CUP parcel
 - The location of the property relative to adjacent and nearby roads
-
- Attend Town of Vermont Plan Commission meeting.
-
- Obtain Plan Commission recommendation for approval.
-
- Attend Town Board meeting.
-
- Obtain Town Board approval.
-
- Pay fee. Make check payable to Town of Vermont.
